EDUCATION

Sree Dattha Institute Of Engineering and Science

B.Tech in Computer Science and Engineering CGPA: 8.48

Pragathi Junior College

Intermediate in MPC, Telangana Board of Intermediate Education (TGBIE): 97.1%

Hyderabad, Telangana

2023 – Present

Nalgonda, Telangana

2021 – 2023

OPEN SOURCE CONTRIBUTOR

Broadleaf Commerce | Java, Spring, Hibernate, JPA, Maven

April 2026

Issue #3114

- Eliminated database deep-scan penalties in sitemap generation by implementing keyset pagination with composite (`fullUrl`, `id`) cursors, replacing costly offset-based queries for scalable traversal.
- Reduced ORM memory footprint and GC pressure by introducing lightweight DTO projections instead of hydrating full entity graphs with eager-loaded relationships.
- Delivered production-ready performance optimizations while preserving deterministic sitemap output behavior and validating functionality through comprehensive test coverage.

EXPERIENCE

Byte Shastra Technology | React.js, Spring Boot, PostgreSQL, Docker, AWS

March 2026 – April 2026

Java Backend Developer Intern – Remote

- Containerized backend services using Docker and deployed on AWS EC2 via Docker Hub, improving scalability and deployment efficiency.
- Built a “Download Test PDF” feature for TestWala, enabling dynamic PDF generation after test completion.
- Managed cloud deployments and backend enhancements, improving application performance and availability.

TECHNICAL SKILLS

Languages: Java, C, JavaScript, SQL

Frameworks/Technologies: HTML, CSS, React.js, Spring Boot

Cloud/DevOps: AWS (EC2, S3, Docker)

Databases: MySQL, PostgreSQL, MongoDB

Developer Tools: Git, GitHub, Postman

Relevant Coursework: Data Structures and Algorithms, OOPs, Computer Networks, Operating Systems, DBMS.

PROJECTS

Smart Email Assistant | *React.js, Java, Spring Boot* | [GitHub](#)

Nov 2025

- Built a Chrome Extension that generates context-aware email replies using AI, directly within the Gmail UI.
- Integrated the extension with a Spring Boot backend and AI-powered API to analyze email content and suggest professional responses in real time.
- Improved user productivity by automating email drafting, reducing manual effort and response time.

Banking Management System | *Spring Boot, REST API, SQL* | [GitHub](#)

Oct 2025

- Built a banking system to manage user accounts, balances, and transaction workflows.
- Designed a layered backend architecture with modular Controller, Service, and Repository components.
- Developed secure and scalable APIs for account creation, deposits, withdrawals, and balance inquiries.

ACHIEVEMENTS & CERTIFICATIONS

Competitive Programming: Solved 300+ DSA problems on LeetCode (Max Rating: 1544).

Open Source: Earned GitHub Pull Shark Badge for merged open-source contributions.

Hackathons: Participated in Hack-Arena (GNIT College) and Tech Byte Hackathon (SDS College).

Certifications: NPTEL Java (77%, Silver Elite), Fundamentals of Python (Edunet, SAP, TASK), CSS (LinkedIn Learning), HackerRank Certifications in Java, CSS, and Problem Solving.
